PROFILE

Hello! I am Abo El-Seoud, a third-year computer science student developing MERN Stack Web applications, working with APIs, and web infrastructure.

Currently, I'm improving my skills more in technologies like React, Node, and AWS (*Cloud Practitioner & Solutions Architect*), so I'm looking forward to an opportunity to gain more practical experience and learn about software industry.

MAIN PROJECTS

FeedME
React / Node / Express / MongoDB / REST API

📅 November 2022 – March 2023   📍 Third year Academic Project

-
-

For more information visit MAES-Pyramids/Forkify-Course-JS

- -

Natours
Node / Express / MongoDB / REST API

📅 December 2022 – January 2023   📍 Node JS Course Project

-
-

For more information visit MAES-Pyramids/Natours-Node-Course

- -

Forkify
HTML / CSS / SASS / Vanilla JS

📅 September 2022   📍 JavaScript Course Project

dynamic web app for providing detailed food recipes to more than 130 different search queries

- The Forkify app is built on **MVC Architecture**
- The Forkify app is implementing the idea of **virtual DOM**

- -

Omnifood
HTML / CSS

📅 September 2022   📍 JavaScript Course Project

Static web page built for an AI-powered food subscription company

- Site developed according to recommended web design rules & guidelines
- Site is built on Responsive web design principles using **Media queries**

TRAINING

Web Development using Node JS and Angular
NTI / Digital Egypt Youth

📅 **20 days x 5 hours**

Backend Development using Laravel and PHP
ITI / Creativa Winter Training

📅 **10 days x 6 hours**

EDUCATION

B.Sc in Computer Science
Mansoura University / GPA: 3.7

📅 Sept 2020 – May 2024

TECHNICAL SKILLS

JavaScript   Typescript   PHP   HTM / CSS

- -

Node.js   Express   Laravel   REST APIs
MongoDB   MySQL   PWA   Git / GitHub

WORK FLOW

- **Full-Fledged Implementation**
  Developed full-fledged working ERP systems, using the React and Node run-time.
- **Utilized Version Control**
  Using Git and GitHub to efficiently manage code changes and collaborate with the team.
- **Tasks Management**
  Implemented agile methodology for task management to prioritize and organize tasks.

SOFT SKILLS

Hard-working (18/24)   Attention to detail
Adaptability & Resilience   Learning Potential

CERTIFICATION

- NTI: Web Development using Node & Angular
- ITI: Backend Development using Laravel & php
- Udemy: Node.js, Express, MongoDB
- Udemy:The Complete JavaScript Course
- Udemy: Build Responsive Real-World Websites
- Cloud Native Base: Algorithms Analysis/Design
- Cloud Native Base: Data Structure Decode
- Linked-In Learning: API and Web services
- Linked-In Learning: Design Patterns
